### Chicken Stealing.

A Chinaman was arrested yesterday morning for having five chickens, for whose ownership he could not account, in his possession. The Chinaman and fowls were taken to the Police Station, the latter to await identification by the owner. This morning a native named Kamai, living at Kanoihili, called at the Police Station and reported that he missed five chickens—two roosters and three hens. On being asked to describe the fowls, he did so to the entire satisfaction of all. He was then allowed to see the chickens. Mr. Kamai stated that he had purchased the fowls from another native named J. Kua, residing at the same place. There was another arrest yesterday for the same offense. Chicken stealing is becoming frequent, although it is not near Chinese New Year's.

# THE LEGISLATURE.

SIXTY-NINTH DAY.

FRIDAY, Aug. 19, 1892.

## Morning Session.

The Assembly convened at 10, and the minutes were read and approved.

Noble Neumann, from the Judiciary Committee, reported on Bill 137, to provide for a police justice for the Island of Molokai, to the effect that they deem the proposition unnecessary and recommend that the Bill be tabled. Report adopted.

From the same Committee by the same member a report was presented on the resolution that candidature fees deposited by Messrs. Apiki and Kapahu be returned to them, to the effect that an item be inserted in the Appropriation Bill to cover the amount. Tabled for Appropriation Bill.

From the same Committee a report on Bill 152, relating to the issuing of executions and proceedings thereupon. Report was tabled for consideration with the Bill.

From the same Committee a report on a resolution relative to the payment of one Kanoha for services in connection with the Kohala Water Works, recommending that the resolution be tabled. Report approved.

From the same committee on the bill to prohibit the sale of salt salmon, they report that the provisions of the bill are both unjust and impolitic, and recommend that the bill be tabled. Report tabled for consideration with the bill.

Under suspension of the rules Noble Thurston presented a petition from tax-payers of Honolulu praying that the tax on playing cards be removed. To Finance Committee.

Noble Williams from the Printing Committee reported that the report of the Finance Committee and Bill No. 68 were printed.

At 10:30 on motion the Order of the Day was brought up and the unfinished business was for the time deferred, consideration being given to the following bills on second reading.

Bill 161. To amend Article 41 of the Constitution. To Judiciary Committee.

Bill 162. To punish the use of vulgar or obscene language. To Judiciary Committee.

Bill 163. Relating to coroners. To Sanitary Committee.

Bill 164. Order of challenging jurors in criminal cases.

Bill 165. Relating to a Royal Patent for land in Kauai. Judiciary.

Bill 169. Relating to foreign fire insurance companies. Special Order of the Day for next Thursday.

Bill 171. Relating to sugar planters holding office under the Government. To Military.

Bill 172. To provide for the voting of seamen engaged in the inter-island trade. To Judiciary.

Bill 151A. To determine the status of the landings of the Kingdom and the rights of the public therein.

Bill 166. Relating to Chinese immigration. To Labor.

Bill 167. Relating to pilots and pilotage at the port of Honolulu. Consideration on Thursday next.

Bill 168. Relating to Chinese immigration. To Labor.

Bill 174. An Act to define the duties of the judicial stenographer in certain cases. To Select Committee.

At 10:47 the House resolved into Committee of the Whole. Rep. Robert W. Wilcox in the chair and proceeded with the further consideration of Bill 78, the Hawaiian Banking Act. Noble Macfarlane made a very strong speech against the Bill, saying that he was opposed to it first, last and all the time. He considered that it was fraught with danger to the country. He was opposed to the Bill because it proposed to flood the country with an unlimited issue of paper money. Paper money brought the Argentine Republic to grief and Brazil was now in the last throes of financial ruin from the same cause. He advised the Hawaiian members that no more cunningly devised scheme could have been invented to steal their country away from them. If it was desired to preserve the independence and political autonomy of Hawaii then we must steer clear of just such schemes as this. He commented satirically upon the provisions of several sections of the Bill and ended with the hope that the Bill would be indefinitely postponed.

Rep. Smith considered that further discussion of the bill was not necessary as the worthless and even dangerous character of the bill was very apparent. He would move that the committee recommend the indefinite postponement.

Noble Horner desired to say but a few words in answer to objections presented. It was surprising what flights of fancy men's imaginations would carry them to. (Laughter). The honorable member commented at some length on the criticisms

made and showed that he had endeavored to present an unobjectionable bill.

Rep. Nawahi desired to have the matter fully discussed. The knowledge of the foreign members would be of use to the Hawaiian and would aid them in determining the merits of the bill. He desired to speak at some length on the subject himself but would now move that the committee take recess until 1:30.

Motion carried and committee at 11:58 rose for recess.

## Mr. Mills in Oakland.

In Oakland yesterday it looked very much as if the days of the week had been shuffled up and Sunday had come out in the middle. A stranger would have thought it was the slowest business town on record, and might have wondered whether it was customary in the city across the bay to close the stores whenever a circus came to town. The good people of Oakland, however, knew what a very different sort of attraction had called them away from their daily avocations, and they are somewhat proud of the fact that so many of the business houses responded to the appeal made to them to close their doors on the day appointed, so that their employees might have a chance to attend the revival services in the great tabernacle. B. Fay Mills has been a revivalist for seven years. His first great success was at Cincinnati, where not only the majority of the stores were closed, but where the wheels of great factories stopped turning and their employees marched in a body to the meeting place. In Portland, Sacramento, and Los Angeles the plan was heartily carried out, and yesterday's experience in Oakland has almost nerved the revivalist to make a similar proposition when he comes to the rescue of San Francisco. Oakland's stores were not all closed, but those that remained open were greatly in the minority. Broadway and Washington streets must have surprised any chance drummer who had expected to take orders on those thoroughfares yesterday. Three out of every four stores had their shades down and a card in the window announcing the participation of employers and clerks in the mid-week Sabbath movement. Even the banks kept nothing but a note clerk on duty, and at least two saloons ostentatiously shut up shop.

## Old Rags Wanted.

Clean white rags, suitable for bandages, are wanted for use at the Bishop Home and the Boys' Home, Leper Settlement, Molokai. Ring up 281 Mutual telephone, and they will be sent for; or leave the same at the office of the Board of Health, or at J. T. Waterhouse's, Queen street.

## Mr. Lander's Recommendation.

Mr. J. A. Lander, a prominent citizen of Clarksburg, Mo., and widely known in that State, says of Chamberlain's Colic, Cholera and Diarrhoea Remedy: "I have seen its good results and can recommend it." For sale by all dealers. Benson, Smith & Co., Agents.

Watch crystals are made by blowing a sphere of glass about one yard in diameter, after which the discs are cut from it by means of a pair of compasses having a diamond at the extremity of one leg.

Sir Henry Bessemer suggests the substitution of aluminium tokens for bank notes of small denominations. He says that with the recent progress in the science of metallurgy these tokens could be made in a fashion that would set all the arts of forgers at defiance.

Dymond has recently succeeded in extracting from lettuce an alkaloid which closely resembles belladonna in appearance, taste and smell, but which, in a dose of five grains, is without injurious effects. The alkaloid corresponds in formula closely to hyoscyamine.
